

Progressing Technology-Enhanced Teaching MOOC

Start date: 13 November 2017

Description

- The MENTEP project developed **TET-SAT**, a new online tool for teachers to **self-assess their technology-enhanced teaching**.
- Be among the **first teachers** in Europe to try out this new tool – and actively contribute to improving it!
- This MOOC offers the possibility to **test the new tool** and to take advantage of **concrete guidance** and the possibility of exchanging teaching ideas and examples online with other teachers across Europe.

Objectives

- The TET-SAT tool will provide you with feedback and resources that can help you **improve your own technology-enhanced teaching**.
- You will **share experiences** of your own teaching to illustrate the 5 competence levels of the tool, from beginner to expert. On that basis, you can converse with other teachers about **concrete teaching examples** using digital tools.

Course information

- **Duration:** 13/11/2017 to 13/12/2017
- **Time:** 3-4 hours per week
- **Language:** English

Target audience

- Primary and secondary school teachers and teacher trainers.
- Head teachers and anyone else interested in the topic.
